User Stories

US1 - As a system user I want to manage (CRUD) the "Freguesia". A "Freguesia" has a name, which must be unique in the "Autraquia". An "Autarquia" has a set of "Freguesia".

US2 – As a system user I want to manage (Create, Retrieve and Delete) "Terrenos". A "Terreno" belongs to a "Freguesia" and each "Freguesia" has a set of "Terrenos". Each "Terreno" has a number (unique into "Freguesia"), a shape, which can be circular, rectangular or triangular. The area of each "Terreno" is computed according to its shape.
